

P 127 H

CONFIDENTIAL

6 May 1954

MEMORANDUM FOR: CHIEFS, POS, TRAINING, SAD, GARD

SUBJECT: Kodalith Thin Base Stripping Film

1. The attached report covers the procurement, tests, and evaluation of a newly acquired stripping film for Agency use.

2. In view of the apparent superior quality of this material over that which was previously employed, an indication of your future requirements for such material, based on a yearly forecast would be appreciated.

3. A limited quantity of some 20 - 100 ft. rolls will be available in TSS/APD in the very near future, and in approximately two months 200 - 100 ft. rolls will become available. It is estimated that this latter quantity should meet all of the Agency requirements for the fiscal year 1955 and accordingly this quantity will be given an appropriate distribution based upon divisional and area requirements.

4. It is requested that you forward your requirements to TSS/APD for appropriate attention.
